EDUCATION

Duke University May. 2026
MEng in Game Design, Development & Innovation Durham, NC
Duke Kunshan University (DKU) & Duke University May. 2024
B.A in Media Arts Kunshan, China & Durham, NC

- GPA: 3.9/4.0; Dean's list in all semesters; Graduation with Distinction; Summa Cum Laude (highest 5%)

Related Courses: Programming with C++, Data Structures & Algorithms, Object Oriented Programming, Calculus, Linear Algebra, Applied Statistical Methods, Game Design and Animation with UE5

PROFESSIONAL EXPERIENCE

Game Square May. 2024-Aug. 2024
Game Design Intern Shanghai, China

- Designed and developed three levels using C# and Unity, ensuring they matched the game's style and theme.
- Integrated SQL to store and retrieve game state data, improving performance and reducing load time by 30%.
- Conducted automated testing and debugging using Unity Test Framework, verifying game logic and reduced 20% post-update issues.

RED Note Apr. 2023-Jun. 2023
Marketing Data Analytics and Operations Intern Shanghai, China

- Assisted 15+ brands including *Uniqlo*, *Bosideng*, and *Marisfrolg* during the advertising preparation, ensuring brand consistency and evaluating media coverage based on reading volume.
- Analyzed large datasets using SQL and Python, estimating and visualizing key correlations between ad investment and market trends with Excel and Tableau to drive data-driven campaign strategies.
- Conducted A/B testing on ad performance metrics such as click-through rates, cost per engagement, and brand mentions, providing actionable insights and increased 30% user engagement.

Mobalytics Dec. 2022-Feb. 2023
Cryptocurrency Gaming Market Research and Data Analysis Intern Remote

- Built a 25-page reporting deck of 10+ P2E game markets covering industry scale and key market players.
- Constructed regression models via R and Tableau to investigate the P2E gaming market trend and visualize correlations between company characteristics and funding size.
- Benchmarked the product mechanism against top competitors, pinpointed changes in global policy guidelines, and adjusted the commercial framework accordingly.

Publics Group May 2022-Jul. 2022
PR Intern Shanghai, China

- Wrote 80+ advertising copy tailored to *Club Med*'s characteristics on official WeChat accounts, Weibo, and RED Note, resulting in a total platform fan growth of 1000+.
- Analyzed engagement data and current popular campaigns on similar brands, and pored over reports by analyzing strategic input on market initiatives after the pandemic including *VIP Live Streaming*.
- Design promotional content based on product news and company dynamics, quantified the value of influencers and interaction algorithm through bi-weekly clients meetings.

PROJECTS & AWARDS

Drinking Bubble Tea – Game for Global Game Jam Jan. 2025

- Developed a bubble tea drinking simulator in Unity using C#, focusing on interactive gameplay mechanics and player feedback loops.
- Designed and implemented physics-based interactions to simulate realistic drinking motion.

Duke University Game Jam 2024 – TOP 1 Oct. 2024

- Designed and developed a two-player interactive game in Unity using C#, incorporating UI/UX, level design, and gameplay mechanics.
- Optimized game flow and responsiveness, ensuring a seamless multiplayer experience.

L'Oréal 2022 Brandstorm – Inclusion Track TOP 3 Apr. 2022

- Proposed an innovative VR cosmetic product tailored for individuals with facial differences, enabling customized beauty & normalization solutions.
- Conducted market analysis, business modeling, ROI estimation, integrating insights from sell-side research reports.
